Ready–To–Go Resources for Teachers, Substitutes, and Classroom Assistants

WEEKLY TEACHER SUPPORT KIT

THIS WEEK'S TOPIC

BUILD CONFIDENCE

WRITING | RESEARCH | COLORING | CRAFTS | MORE

I Am Unique

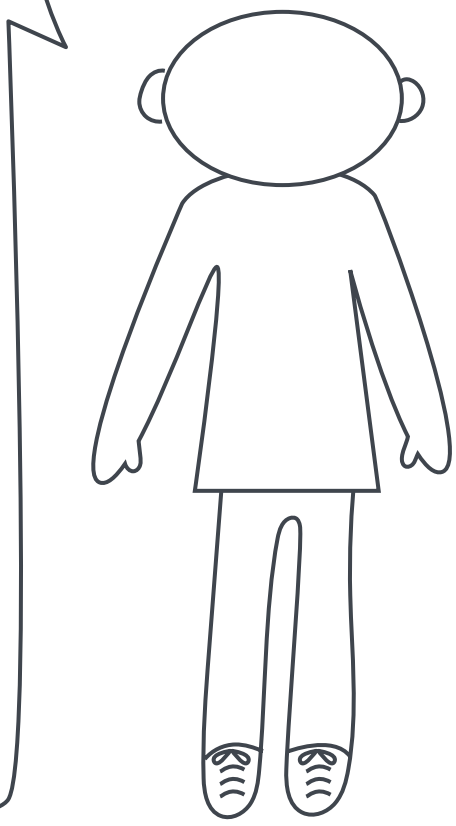

Goes with *Slumberkins: Unicorn*

Draw yourself in the outline and then write two ways that you are unique in the thought bubble.

1.

2.

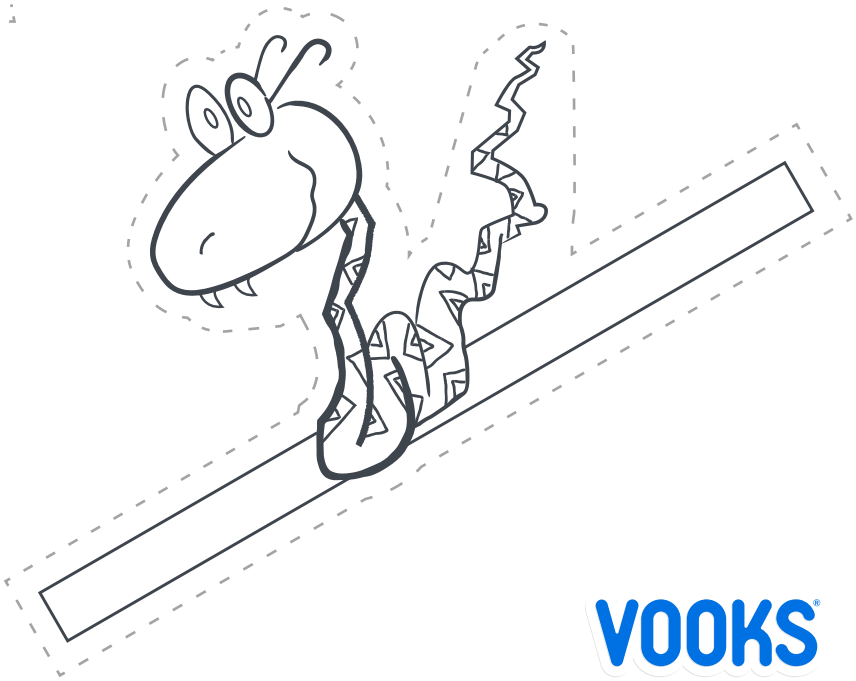

NAME _____

VOOKS

I Am (Not) Scared Puppets

Goes with *I Am (Not) Scared*

How to make a puppet

1. Color and cut out the puppets from *I Am (Not) Scared.*
2. Glue the ends of the strips together to make a circle.
3. Place puppets on fingers and tell your own story about being scared with a puppet show.

VOOKS

Connecting Activity

Goes with
Party Nazari's Fantastic Future

Nazari was asked what she wanted to be when she grew up. Match the occupations that Nazari thought of with the description of the job. Write the letter of the matching job in the space provided.

fly to planets	
grow organic food	
build homes	
make bridges	
treat people who are sick	
create free lights to light up the world	
see each culture's beauty	
clean's teeth	

A—Dentist

B—Traveler

C—Scientist

D—Doctor

E—Engineer

F—Construction Worker

G—Farmer

H—Astronaut

Big Dream

NAME _____

VOOKS

Solar System

Goes with
Earth Yay!

Materials needed

- Paint Stirring Stick
- Paintbrush
- Paint (Black, Grey, White, Blue, Red, Orange, Yellow, Purple)
- Clothespins (8)
- Black Marker

Instructions

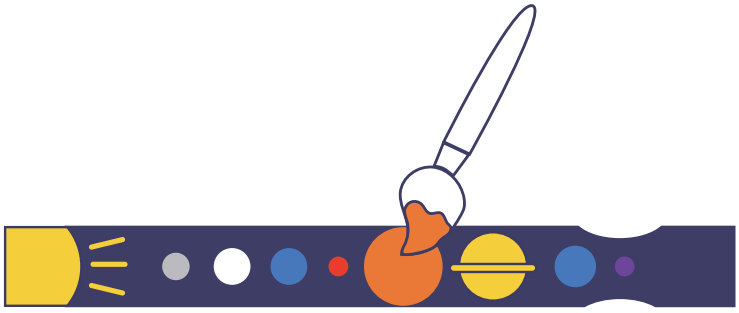

1. Paint the paint stirring stick black and let it dry.
2. Paint the top of the stick yellow to represent the sun.
3. Paint the 8 planets in this order and color:
    - Mercury — Grey
    - Venus — White
    - Earth — Blue
    - Mars — Red
    - Jupiter — Orange
    - Saturn — Yellow
    - Uranus — Blue
    - Neptune — Purple
4. Write each planet's name on the clothespins. One per clothespin and match up the name with the planet. Now you know which planets are closest and furthest from the sun!

Craft Activity

Goes with *Earth Yay!*

Materials

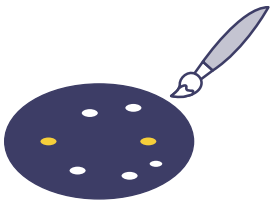

- Paper Plate
- Hole Punch
- White Yarn
- Paint or Coloring Utensils
- Scissors
- Paintbrush
- Sun and Planet Template or Construction Paper

Directions

Part 1: Paint Your Solar System

1. Start by painting the paper plate black and give it a minute to dry.

2. Use a little bit of yellow and white paint to paint on some stars and meteors.

Part 2: Make the Sun and Planets

1. Use provided planet template at the end of this document and color or paint the sun and planets. Then, cut out the sun and planets.

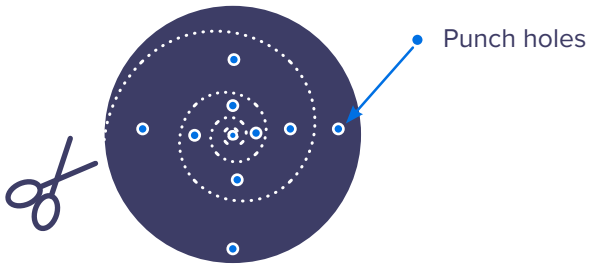

2. If you are not using the provided planet template, you will need an assortment of colored construction paper to make the sun and 9 planets. Using different sized round items, trace out your sun and planets on the colored construction paper. Then, cut out the sun and planets.

Goes with
Earth Yay!

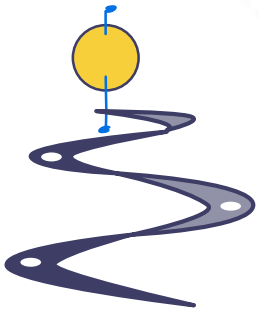

Part 3: Make Your Mobile

TOP VIEW

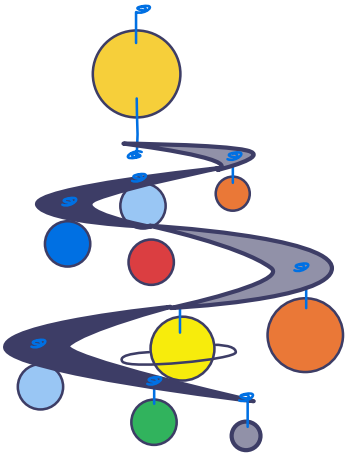

SIDE VIEW

1. Get the dry galaxy plate and start about 2” in and cut a spiral.
2. Punch a hole in the very center of the spiral, the punch will be for the hanger. Then, punch 9 more holes, spaced out as the spiral goes downward.
3. Punch a hole in the top and bottom of the sun.
4. Cut about 1 yard of white yarn and fold it in half. Then, weave it into the holes you put in the sun leaving extra on the end to hang the mobile.
5. Weave the ends of the yarn into the very middle hole on the plate and knot it.

Part 4: Put the Planets in Orbit

1. Line the planets up in order and punch a hole in the top of each planet.
2. Cut a piece of white yarn for each planet. Then using the yarn tie each planet to the holes punched in the mobile, starting with Mercury at the top and Pluto at the bottom.
